**FIRST ENLARGEMENT FOR THE JEAN MONNET PROJECT**

European integration in University Studies

**POLAND AND HUNGARY 1993-1995**

Creation of the first 7 European Jean Monnet "Chairs" in central Europe  
Launch of 19 permanent courses on European integration starting in October 1993.

Given the increasing need for knowledge on EC issues and in the perspective of possible future Community membership, the Polish and Hungarian authorities wished to allocate a part of their National PHARE programme to the setting up of a Jean Monnet Project for Poland and Hungary (1993-1995) from the start of the University year next October.

Launched in 1990 at the request of the universities of the member states of the European Community, the Jean Monnet Project, for which the Commissioner, Professor Pinheiro, has proposed a follow-up in 1994 in the framework of his information policy, is now extended to Poland and Hungary.

The Jean Monnet Project for Poland and Hungary is governed by the same scientific criteria as the Community Jean Monnet Project and is subject to the same selection procedure, carried out by the *European University Council for the Jean Monnet Project*.<sup>1</sup>

On 29 June 1993 the European University Council met in Brussels to examine the 151 applications, of which 122 came from Polish universities and 29 from Hungarian universities.  
A total of 36 projects for Poland and 20 projects for Hungary were selected.

<sup>1</sup> Composed of nine members representing the Liaison Committee of the National Conferences of Rectors/Vice Chancellors of the universities in the Member states and the Association of professors specialised in European integration studies - ECSA-Europe. Two Polish and Hungarian academic representatives assisted the University Council.
